# Run Your Entire Church From One Simple App

Stop juggling spreadsheets, chasing phone numbers, and digging through endless WhatsApp groups. Ekklesia brings every part of your church into one clean, easy-to-use platform — so your team stays organized, your people stay connected, and Sunday runs smoothly.

## THE PROBLEM

# Admin work shouldn't slow ministry down

Most church teams already run the church — they just do it across too many places:

- Spreadsheets that no one fully trusts
- Phone numbers scattered across personal contacts
- WhatsApp groups that bury the real answer
- Manual visitor follow-ups that fall through
- Records that are hard to find when you need them
- Admin work that eats time meant for ministry

That doesn't mean your church is disorganized. It means your tools don't match how your church works.

## THE SOLUTION

### One simple platform for church life

**Ekklesia** brings administration and engagement together — members, services, visitors, teams, communication, and (on paid plans) finance and duty planning. Built for churches of any size. Easy enough for anyone on your team to use.

## WHAT IMPROVES

### What your church gains

#### Better organization

One place for people, events, and records

#### Less admin work

Less chasing, less retyping, fewer lost details

#### Clearer communication

Alerts, messages, and outreach from one hub

#### Easier member & visitor care

Profiles, check-in, and follow-up in one flow

#### More connected teams

Departments, duties, and assignments stay visible

#### Smoother Sundays

Attendance, serving, and visitor welcome run cleaner

## THE PLATFORM

# What You Get

Each capability shows whether it is on the free Ministry plan or a paid plan.

Badge key: FREE PAID LIVE COMING SOON

## People & community — know who's who

|                       |                                              |      |
|-----------------------|----------------------------------------------|------|
| Member Dashboard      | Every member's details in one place.         | FREE |
| Member Check-In       | Quick attendance — no manual book.           | FREE |
| Workforce Management  | Staff and volunteers alongside membership.   | FREE |
| Kids Ministry         | From check-in to parent handover.            | FREE |
| Teams & Departments   | Units so everyone knows where they belong.   | FREE |
| Visitor Check-In (QR) | Public QR check-in for visitors.             | FREE |
| Visitor Follow-Up     | Assignments, appreciation emails, follow-up. | FREE |

## Events & serving — run Sunday with less friction

|                         |                                             |           |
|-------------------------|---------------------------------------------|-----------|
| Event Setup & Schedules | Plan services or programs in minutes.       | FREE      |
| Locations               | Manage venues and service locations.        | FREE      |
| Task Assignment         | Assign event duties to team members.        | FREE      |
| Duty Roster             | Monthly roster for ushers, media, protocol. | PAID      |
| Appointment Booking     | Book time with pastors or team leaders.     | PAID SOON |

## Administration — one view of the church

|                       |                                                                            |           |
|-----------------------|----------------------------------------------------------------------------|-----------|
| Admin Dashboard       | Clear view of everything happening.                                        | FREE      |
| Multiple Branch Setup | Create & manage locations; admins see across branches today.               | FREE      |
| Branch-Scoped Access  | Limit an admin to one branch's data only.                                  | PAID SOON |
| Identity & Roles      | Users, roles, and permissions.                                             | FREE      |
| Church Acts           | Testimonies, miracles, and church stories, written as chapters and verses. | LIVE      |

## Finance, communication & support

|                            |                                                                        |                |
|----------------------------|------------------------------------------------------------------------|----------------|
| Finance Module             | Contributions, expenses, ledger, campaigns, pledges, budgets, reports. | PAID           |
| Notification Hub           | In-app alerts, scheduled messages, outbound tools.                     | FREE           |
| Church Resources           | Share links, media, and church information.                            | FREE           |
| Event Feedback             | Collect feedback after services.                                       | FREE           |
| Email Credits              | Outreach & announcements. Welcome credits + top-ups.                   | FREE + TOP-UPS |
| PWA / Install as App       | Install on phones and desktops.                                        | FREE           |
| Reports & Analytics        | Attendance, people, events, finance dashboards.                        | FREE ADV.      |
| AI Reporting               | Deeper AI-assisted insights.                                           | PAID SOON      |
| Help Center & AI Assistant | Searchable manual + in-app how-to help.                                | FREE           |
| Support & Priority Help    | In-app tickets and fast help from the team.                            | FREE           |

### Plan notes

- **Ministry (free):** all Free features. The member limit is on the pricing page.
- **Growth, Spread, Mega:** unlock Paid features and higher member limits. Current prices are on the pricing page.
- **Church Acts** is live: testimonies and church stories, written as chapters and verses.
- **Already free:** create and manage multiple branches. **Coming on paid plans:** branch-scoped access so a super admin can tie an admin to one branch's data only

## PRICING

## Prices live on the website

Ministry is free, with no credit card. Growth, Spread, and Mega are the paid plans. Larger churches can ask about a Custom plan.

**One place for current figures.** Prices, member limits, and the introductory free period are set in the Ekklesia portal and shown on the website. This document does not repeat them.

**Ministry**

Free to start

No card required

**Growth**

Paid plan

More capacity

**Spread**

Paid plan

Multi-team churches

**Mega**

Paid plan

Large congregations

**What stays true**

- Start on Ministry with no credit card.
- Upgrade to Growth, Spread, or Mega when the church needs more.
- Beyond the published Mega plan, ask about a Custom plan.
- Email credits, domain setup, and optional training are add-ons on the next page. Those prices are not on the pricing page.

## SECURITY

# Data Security & Protection

Churches entrust us with sensitive member, visitor, staff, finance, and activity data. Protecting it is a core responsibility of the platform.

### 1 • Secure transmission

HTTPS/TLS on all communication with the platform.

### 2 • Password protection

Passwords are hashed, never stored as plain text.

### 3 • Controlled access

Infrastructure access limited to authorized personnel.

### 4 • Application access control

Users only see what their account and role allow.

### 5 • Customer data isolation

One church cannot access another's data through the app.

### 6 • Secure infrastructure

Managed servers with MySQL; access restricted to admins.

### 7 • Database security

No direct DB exposure; credentials stay separate from app users.

### 8 • Secure development

Changes are tested before production deployment.

### 9 • Data privacy

Church and member information is confidential and used to operate the services you request. Church administrators remain responsible for how information is collected and processed in their organization.

## Security roadmap

- Multi-factor authentication (MFA)
- Automated security scanning
- Monitoring and alerting
- Stronger backup & disaster recovery
- Vulnerability assessments
- Penetration testing
- Infrastructure hardening
- Fuller audit logging

These measures will be introduced progressively.

## QUESTIONS

## Quick Answers

**Is Ekklesia really free?**

Yes. Ministry is free, with no credit card — core modules plus 1,000 welcome email credits. The current member limit is on the pricing page.

**What happens past the Ministry limit?**

Upgrade to Growth, Spread, or Mega. Members, records, and history move with you. Current limits are on the pricing page.

**Credit card for the free plan?**

No.

**Free period on paid plans?**

Paid plans include a free period before billing starts. The current length is on the pricing page.

**What's not on the free plan?**

Finance and Duty Roster are on paid plans. Appointment Booking and Branch-Scoped Access Control are coming soon. Church Acts is live now. Creating and managing multiple branches is already free.

**Password reset / verification emails?**

Always free — they never use email credits.

**Own domain or training?**

Domain setup \$20 on Ministry, free on paid. Training optional; ₦20,000 online on Ministry, free on paid. Support is always free.
